Drawings and Specifications for Do-it-yourself (diy) Fabrication of LeanFish Fish Meal Plants – without and with Oil Extraction

(hit the logo to download an Acrobat printout version of the Price List)

Prices below cover **complete sets of drawings and specifications** for fabrication, assembly, installation, testing and commissioning of **LeanFish fish meal plants**. The data are presented on **DIN/ASA size A3 horizontal sheets** in numbers as indicated below, rendered in color in Acrobat formats and submitted on a CD including one set of black-and-white printouts.

The drawings cover the **basic plants with odour control**; they show dimensions of the parts in metric figures, specify all materials to be used and every drawing contains **at least one 3D view** of the particular part it represents. The performance of auxiliary equipment (electric motors, drives etc) is identified.

Costs for surveying installation sites and traveling for negotiations are **subject to negotiations**.

Plant Type	Raw Material Capacity - kg/24h	Leaflets or Web Pages	No of Sheets (approx)	Prices EUR
LeanFish Half	600	X - Y - Z	50 to 70	2.500
LeanFish One	1000	X - Y - Z	50 to 70	3.000
LeanFish One-and-a-half	1500	X - Y - Z	50 to 70	3.500
LeanFish Two	2000	X - Y - Z	50 to 70	4.000
LeanFish Three	3000	X - Y - Z	50 to 70	5.000
LeanFish Combi Size One	1000	X - Y - Z	70 to 100	6.000
LeanFish Combi Size Two	2000	X - Y - Z	70 to 100	8.000
LeanFish Combi Size Three	3000	X - Y - Z	70 to 100	10.000
Special Designs	To be agreed	X - Y - Z	As required	-

LeanFish plants can be fired with agricultural offal and residues, thus making them **more economical and improving the quality of the meal**. For information on biomass gasification, please consult:
